

Neurology Grand Rounds

" NEUROPATHOLOGY OF SEIZURES "

Learning Objectives:

1. Relate the common structural abnormalities identified in epilepsy.
2. Recognize the histologic features of tumors associated with epilepsy.
3. Understand the histologic features of the different classes of focal cortical dysplasia.

Dr. Hope Theresa Richard, MD, PhD, is an Assistant Professor of Pathology and the Director of Neuropathology at Virginia Commonwealth University. She received her PhD and MD from the University of South Alabama College of Medicine in Mobile, AL and went on to complete her Anatomic and Clinical Pathology residency training as well as her Neuropathology Fellowship training at VCU. Dr. Richard currently serves as the director of the neuropathology fellowship and is an active member of the teaching faculty in the VCU School of Medicine and Dentistry.

Dr. Richard's research interests include the pathogenesis and genetics of primary CNS neoplasms.

FRIDAY, October 30, 2020 ■ 12PM
